

CME Dinner Symposium

**Paving the Way to Patient Acceptance, Adherence and Satisfaction:
The Role of Next-Generation Insulin Therapies**

Friday, October 23, 2015

7:00 – 9:00pm

Supported by an educational grant from Novo Nordisk, Inc.

SYMPOSIUM OVERVIEW

This symposium will discuss common roadblocks to the initiation of and adherence to insulin therapy as well as provide strategies to overcome these barriers. Experts will present evidence-based strategies for integrating the latest in insulin therapies and technologies into an overall diabetes management program to improve glycemic control, reduce risk of hypoglycemia, and make insulin therapy more convenient, manageable, and effective.

LEARNING OBJECTIVES

Upon completion of these educational activities, participants will be better able to:

- Develop clinical strategies for the timely initiation and intensification of insulin therapy to achieve glycemic control.
- Recognize common barriers that limit the effectiveness of insulin-mediated glucose control and take steps to overcome them.
- Appraise data on new and emerging insulin formulations, including safety, efficacy, effects on hypoglycemia and nocturnal hypoglycemia, and pharmacological profiles.
- Describe how to integrate novel insulin therapies and technologies into clinical practice to improve glucose control, reduce risk of weight gain and hypoglycemia, and increase acceptance and adherence for patients.

PRELIMINARY AGENDA & FACULTY

Opening Remarks

Chairperson: **Matthew C. Riddle, MD**

Timely Initiation of Insulin Therapy

Presenter: **Anne L. Peters, MD**

Identifying Barriers to Insulin Therapy: A Proactive Approach

Presenter: **Martha M. Funnell, MS, RN, CDE**

Newer Therapies and Novel Combinations: Improving Patient Satisfaction and Addressing Cardiometabolic Risk

Presenter: **Daniel Einhorn, MD**

A Roadmap to Implementing Patient-Centered Approaches with Insulin Therapy

Case Studies, Panel Discussion, and Question & Answers

Moderator: **Matthew C. Riddle, MD**

Presenters & Discussants: **Daniel Einhorn, MD; Martha M. Funnell, MS, RN, CDE; Anne L. Peters, MD**

Closing Remarks

Chairperson: **Matthew C. Riddle, MD**

Note: Agenda & Faculty are subject to change.

This activity is jointly provided by HealthScience Media, Inc. (HSM) and Medical Education Resources (MER).
